Sales Price	\$96,995.00

Description

The SENTINEL PRO is a step above. This is our most popular model and then some, with a wider 84.5 reverse chine bottom it provides added stability without sacrificing performance. This is an awesome offshore platform for hunting those tuna, salmon or halibut and is at home on the lake as well. This boat has a large seating area and expansive deck space for fishing or just hanging out. With its 16 reverse chine bottom it cuts through chop and remains stable in all conditions.
